Phone: +92 314 6180920 / Email: samisial1555@gmail.com / Github: https://github.com/Sami-Sial

Summary:

***Full Stack Developer** with about 2 years of coding experience with **internship at Code Alpha** and worked as **Mern Stack developer at Softex Solution**. Skilled in MERN stack, React Native and Next JS building full web apps with secure auth, API integration, and responsive design.*

Technical Skills:

Frontend:	HTML, CSS, JS, React JS, Bootstrap, Tailwind CSS, Material UI
Backend:	Node JS, Express JS, Mongo DB, Mongoose, Prisma, My SQL Basics
Mobile App:	React Native Basics, Expo
Full Stack Framework:	Next JS
Tools:	Postman, Hoppscotch, Git and Github
Deployment:	Vercel

Experience:

Softex Solution - Mern Stack Developer (Full Time Remote) *July 2025 – November 2025*

- Developed MERN stack and Next JS applications with secure authentication and APIs.
- Building admin dashboards, optimizing performance, and delivering client-focused solutions.

Code Alpha - Full Stack Developer (Internship) *May 2025 – June 2025*

- Completed a project-based internship where I built and submitted full-stack projects.
- Developed responsive web applications like ecommerce and task manager apps using Mern Stack, Next.js, Tailwind CSS, and REST APIs.

Self-Based Full Stack Developer (Independent Work) April 2024 - May 2025

- Worked independently on multiple full-stack projects, building scalable applications using MERN Stack, Node and EJS templates and REST APIs.
- Designed complete system architectures, implemented secure authentication (JWT, 2FA, OTP), integrated Stripe/PayPal payments, and built high-performance dashboards.

Latest Work:

LinkersCart — Multivendor eCommerce Platform (Next.js + Prisma + 2FA)

Built a scalable multivendor eCommerce system with multi-role access (Wholeseller, Supplier, Factory, User, Admin). Designed the complete Prisma schema, implemented 2FA with OTP, product & category management using Next.js Server Actions, and admin commission management. **Optimized performance** using server components, caching, and clean backend architecture.

UpSkillsz — Education & Exam Portal (Next.js + 2FA + Stripe & PayPal)

Built end-to-end education portal with role-based dashboards for Admin, Teacher, and Student. Added secure 2FA authentication, course/exam management, assignment flows, and integrated **Stripe + PayPal** for payments. Delivered **high-performance rendering** using Next.js best practices and optimized server logic.

Real Estate App (Airbnb Clone – MVC Architecture)

Developed a full-stack real estate booking platform using the MVC pattern, featuring listings, reservations, reviews, map integration, and multi-provider auth. Improved scalability and performance through optimized controller logic.

Talk-A-Tive (Real-Time Chat – MERN + Socket.io)

Built a real-time chat application with private/group chats, media sharing, typing indicators, online/offline presence, and secure JWT auth. Ensured fast, reliable messaging with optimized Socket.io events and MongoDB queries.

Personal Projects:

Built multiple hands-on projects to strengthen real-world development skills and improve frontend and backend problem-solving.

1- Ecommerce App (MERN Stack) 2- Task Manager App (Next JS + Node) 3- Amazon and Netflix UI Clone
4- Weather App 6- QuizApp 7- Todo App (React JS)

Education:

- Fsc Pre Medical | 12 years of education Marks: 97%
- Self Taught Developer (MERN Stack Development Course (Apna College Delta Batch), Youtube, Google)

Achievements:

- My portfolio website is **ranked #2 on Google Search** for the **keyword "Sami Xial"** achieved through strong SEO optimization, high-quality content, and consistent online presence.
- I cracked **Science Talent Framing Scheme (STFS)** launched by Pakistan Science Foundation, Islamabad. Throghout province Punjab only 135 students were selected on matric based written test and interview and I was part of them. And I got **2.5 lac scholarship.**
- **Topper** of school in matric board exams with **96% marks.**
